WORK EXPERIENCE

ElektraFi - Fintech Platform | Vancouver, BC

[Project Link](#)

Business Systems Analyst (Capstone Project)

Jan 2025 – Apr 2025

- Partnered with CTO and stakeholders to analyze user behavior trends, identify system gaps, and propose retention strategies in a digital finance platform.
- Led Agile backlog grooming, wrote functional specs, and created workflow documentation for developers and QA.
- Conducted A/B tests, built dashboards using Power BI, and delivered presentations summarizing impact to senior leadership.
- Contributed to frontend/backend enhancements using React and Node.js to improve user onboarding and goal tracking.

Bank of America Merrill Lynch, Shanghai, CN

Jul 2017 – Sep 2017

Technology Intern, Wholesale Banking

- Collaborated with IT and business teams to verify client onboarding data and document system issues.
- Supported QA testing cycles and participated in SDLC meetings focused on internal financial tools.
- Completed AML training and contributed to improving data integrity for internal compliance audits.

East West Bank, Shanghai, CN

Jul 2018 – Sep 2018

Commercial Banking Intern

- Assisted in preparing monthly financial reports, budget forecasts, and variance commentary for senior managers.
- Conducted AML checks and basic KYC verifications using internal monitoring tools to identify suspicious activity.
- Supported cost analysis projects evaluating profitability across client portfolios.

COURSE PROJECTS

Credit Card Fraud Detection System

[Project Link](#)

Data Analytics + Tech Project

Jan 2025 – Apr 2025

- Built fraud detection models and interpreted model outputs to present actionable insights for banking applications.
- Used Power BI and Python to visualize fraud trends and presented findings in a dashboard narrative format.
- Designed metrics tracking framework for stakeholder reporting and root-cause analysis.

Kanbas LMS Quizzes Module

[Project Link](#)

Web Systems Development Project

Aug 2024

- Built analytics dashboard to track user engagement and score performance.

- Designed role-based access control to ensure appropriate data segmentation and security.

Ernst & Young, New York, NY

Jan 2022 – Jun 2022

Real-World Consulting Project (NYU)

- Built analytics reports on workforce learning patterns to advise E&Y HR strategy.
- Segmented employees based on demographics and career preferences using clustering methods.
- Delivered final presentation to E&Y leadership with actionable recommendations on Gen Z training programs.
